get better results in less study time stop relying on outdated learning techniques and streamline your revision with science based study strategies instead how to learn includes a set of practical solutions for use with any subject at all stages of learning flawed strategies and why they don t work how to improve

your own learning and the best ways to check if it's working forming good habits note taking flashcards and what to do in class how memory works and why this is important the importance of the right study schedule boosting attention and concentration exam planning including exactly what to do if you've left studying to the last minute each chapter includes review questions so you can check your understanding as you progress through the book

boost the effectiveness and the quality of your creative thinking with these simple evidence based strategies this book will guide you through the stages of the creative process from idea generation to effective work habits all of the strategies are rooted in cutting edge cognitive science they can be applied to artistic pursuits such as writing and painting and also to business hobbies and much more divided into two sections thoughts and ideas and craft and habits this practical guidance will help you unlock your creative potential

this book demonstrates how tolerance and ethnocultural empathy can be taught in secondary school citizenship classrooms through the application of sociology and social psychology combining theoretical pedagogical and policy perspectives it presents the theme tolerance and ethnocultural empathy for mutual acceptance resources and reports on mixed methods case study research in two contrasting Welsh schools the findings show how targeted lessons on topics such as prejudice labelling theory in group out group dynamics and media influence can move pupils from thin tolerance peaceful coexistence towards thick tolerance empathy mutuality and celebration of diversity this interdisciplinary approach offers practical transferable strategies and resources for educators policymakers and youth practitioners seeking to foster inclusion reduce prejudice and strengthen community cohesion in the UK and beyond

this book provides simple clear in depth explanations of all the topics in the AQA GCSE specification 4180 syllabus but it will prove invaluable to students at many levels on many courses and to the independent reader it can be used as a stand alone home study course as a classroom text as a reference text or just for pleasure for those who love to think about what makes people tick psychology describes up to date research as well as some classic psychology studies and even debunks one or two psychology research myths it leads the reader through all the topics in the syllabus as a teacher would in a classroom setting topics are presented as a series of lessons followed by check your understanding sections which are designed to help you check and retain the information in each lesson an assessment record provided at the end of the book will help you keep track of your progress lessons are interactive with many opportunities to jot down your thoughts and reactions reflect on how a topic relates to your own experience discuss with other people and become more involved with the material presented students can pinpoint the topics they are studying for GCSE by using the table mapping the GCSE specification against the lessons in this book for those studying outside formal classrooms there are guidelines about how best to approach your studies the book assumes that readers have no previous knowledge of psychology and among the topics covered are conformity and obedience would you press a button to kill someone just because you are told to do so many people would it seems sex and gender do girls and boys men and women behave so differently if so why memory how does memory work and how accurate is it non verbal communication do we reveal our true feelings in our body language

development of personality what exactly is anti social personality disorder prejudice and discrimination are we bound to discriminate against people who are unlike us learning how to remove your fear of spiders snakes flying open spaces or anything else using the principles of learning aggression is aggression born into us is it in our hormones or do we learn to fight research methods and the ethics of psychology psychology is based on evidence not just ideas but what type of study constitutes good evidence and how should we treat the people in our studies

uncovered 1 in 4 exam grades is wrong an important contribution to our thinking sixth form colleges association an uncomfortable but important read headmasters and headmistresses conference everyone in uk education should reflect upon the problems identified in this powerful book higher education policy institute every summer in britain one million gcse and a level candidates receive results that define their school years and set them up for their life but those results are gravely unreliable in fact about one grade in four in england is wrong that is 1.5 million grades every year an a level grade b might have been an a or even a c had a different examiner marked the script similarly a gcse grade 7 might have received a grade 8 or a 6 for a decade young people and their friends and families have been unable to grasp the full extent of this randomness now in this definitive and easy to follow book dennis sherwood explains why so many pupils receive final grades that don't do them justice and he suggests ways to regain trust which apply to essay based exams throughout the world reviews know an a level student who you were absolutely sure should nail an a but ended up with a b well they probably should have got that a but were a victim of this scandal sherwood's work changed my outlook let him change yours too robert campbell former chief executive morris education trust dennis has been challenging our thinking about assessment and the awarding of grades for many years combining detailed research with an engaging manner and clear explanations this is an important contribution to our thinking bill watkin chief executive sixth form colleges association dennis sherwood asks the questions about exam grades that no one really wants to answer his analysis suggests that much of what we think we know about school exams is based at best on wishful thinking and at worst on wilful misrepresentation of statistics but he also has some positive suggestions for improvement missing the mark is an uncomfortable but important read melvyn roffe chair headmasters and headmistresses conference missing a grade can result in university or college applications being rejected dennis sherwood asks the 64 000 question are grades reliable enough for the purposes they are supposed to serve this book presents an insightful analysis of this important matter including the rules introduced in 2016 to reduce the number of appeals the controversial grading processes in 2020 and 2021 when exams were cancelled why real grades are so unreliable and some solutions too huy duong parent everyone in uk education should reflect upon the problems identified in this powerful book and then decide what to do about them nick hillman director higher education policy institute anyone with an interest in how examinations are assessed from those in government regulators schools colleges universities to employers teachers parents and students should read dennis sherwood's incisive analysis his conclusions will have a profound impact on our idea of the accuracy reliability and fairness of examinations mike larkin emeritus professor queen's university of belfast and total equality for students dennis provides a clear step by step outline of what is going so terribly wrong and the easy ways to remedy this ollie green a level student about the author dennis sherwood is a management consultant with experience of solving complex problems he has a physics masters from the university of
